FORD **TRANSIT CONNECT**

Visionary. Ingenious. Remarkable. Every vehicle bears his signature.

Henry Ford

Make your work a pleasure

Car-like comfort, durable seating and a commanding driving position make the Transit Connect a relaxing and comfortable place to be. Great to drive, great to sit in, offering a high-quality finish without compromising everyday practicality.

The new headquarters

The Ford Transit Connect is built to take on tough work and retain its eye-catching good looks. With the latest fuel-efficient engines and smart technology, it offers today's business a real competitive edge.

Three up front

The dual passenger seat allows the option of an extra passenger in the cab if required. The centre seat can also fold down to create a writing surface, and flips up to reveal a convenient storage box. (Standard on Trend and Limited)

Vehicle shown is a Ford Transit Connect Trend (L1) in Moondust Silver metallic body colour (option), with alloy wheels (option).

Engineered for durability. Tested for toughness

Like all Ford Transits, the Transit Connect has durability in its DNA.

A relentless testing programme ensures that it's a vehicle that lasts.

The stocktake

There's room for two Europallets and 3-metre long* items in the L1 van. L2 models can take a standard 8' x 4' board in the load box and 3.4-metre long* items.

*In vehicles fitted with dual passenger seat and load-through bulkhead.

Vehicle shown is a Ford Transit Connect Trend (L2) in Moondust Silver metallic body colour (option) with alloy wheels (option).

Front overhead storage shelf

Convenient storage shelf keeps documents and other items within easy reach. (Standard)

250,000 door shuts

We opened and closed the doors and bonnet over 250,000 times in real-world conditions to help ensure they will never let you down.

Load-through bulkhead

Carry items up to 3.0 metres in length in the L1 van, thanks to the clever load-through bulkhead. L2 models are capable of holding 3.4-metre long items. (Load-through bulkhead standard on Trend and Limited)

The bodyguard

A comprehensive line-up of safety and driver assistance features makes use of the latest technology to protect the driver, passengers and their belongings.

/

Active City Stop®

Designed to help reduce the likelihood or consequences of your van colliding with the vehicle in front in slow-moving traffic by applying the brakes if it is detected that a collision is likely. (Option)

- [©]Uses sensors.
- ¹⁾Safety feature.
- ²⁾Driver assistance feature
- Operates at speeds over 40mph on multi-lane roads with clearly visible lane markings.

Lane Keeping Alert and Lane Keeping Aid®†

Designed to recognise when you approach lane markings without using the indicator, and alerts you with vibrations through the steering wheel. If the system detects that an unintentional lane change is likely to occur, it is designed to apply a steering torque back towards the lane you were in. (Optional on Trend and Limited)

Load Adaptive Control (LAC)@1)

Designed to adjust the responses of the ESCⁿ system to compensate when the vehicle is unladen, partially, or fully laden. (Standard)

Occupant safety

A full range of airbag protection is available, including driver and passenger* front airbags, seat-mounted side, head and thorax airbags and side curtain airbags¹¹. (Driver's airbag standard all other airbags optional)

Acceleration Control^{Ø1)}

Acceleration Control is designed to limit acceleration when the vehicle is empty to help reduce fuel consumption. Available from early 2016

Trailer Sway Control^{Ø1)}

When it detects trailer sway, the system is designed to reduce engine torque and apply the brakes to the appropriate wheel(s) to help maintain control (Standard with Ford fitted tow bar)

Electronic Stability Control (ESC)^{Ø1)}

ESC⁹ is designed to help you maintain control in extreme driving conditions. It senses when you are deviating from your chosen line and aims to keep you on track by automatically regulating braking and engine output. (Standard)

Emergency Brake Assist®1)

Designed to recognise an emergency braking situation and increases the pressure within the braking system to provide optimum stopping power. (Standard)

 $Vehicle \, shown \, is \, a \, Ford \, Transit \, Connect \, Trend \, (L2) \, in \, Race \, Red \, solid \, body \, colour \, with \, alloy \, wheels \, (option).$

Parking distance sensors, front and rear²⁾

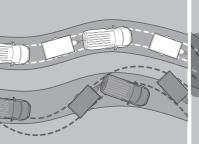

With the Ford Transit Connect, you won't have to pass by those more challenging parking spaces. An audible warning helps you judge the distance between your vehicle and obstacles at the front and rear, for easier parking and manoeuvring.

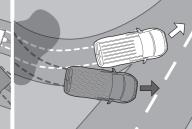

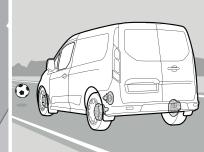

Rear-view camera

Select reverse and the view from the rearview camera is displayed automatically in the internal mirror, or Multi-Functional Display. Marker lines overlaid on the camera image indicate where the vehicle is heading. (Option)

Ford SYNC 2 with Voice Control and Touchscreen

Select music, control navigation and interior temperature, make and receive hands-free calls and choose contacts from your phone list with remarkably simple voice commands, or via the 6" colour touchscreen. It will even read out your incoming text messages when paired with a compatible mobile phone. (Option)

The board meeting

Ford Transit Connect comes with a wealth of useful features to help make your life a little easier and delivers the most connected and enjoyable driving experience.

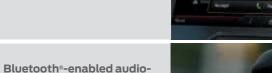

Vehicle shown is a Ford Transit Connect Trend (L2) with Route in Charcoal Black interior and Ford radio/CD player with Ford SYNC and DAB audio system. (Standard) (vehicle shown features optional equipment)

Note The Bluetooth word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Ford Motor Company Limited and its associated companies is under

Bluetooth® connectivity

Bluetooth® hands-free phone with SYNC's Voice Control System technology provides a wireless mobile phone connection with voice recognition control for audio, phone and Climate control (when DEATC is specified).

streaming

Stream your music collection from your compatible MP3 player or mobile phone to the vehicle's audio system.

Sanah Sanah

Audible SMS

Have your incoming text messages read to you from your compatible connected phone, including commonly-used abbreviations and emoticons, and you can even respond with a choice of 15 preset text messages.

Automatic Temperature Control (DEATC) air conditioning Can be adjusted separately for the driver

Dual-zone Electronic

Can be adjusted separately for the drivi and front passenger, with up to 4°C variation from side to side. (Option on Trend, Standard on Limited)

Centre console with stowage bin including power point and AUX MP3 socket

Open centre console with a 12-volt socket, AUX connectivity, USB connectivity with charging, two cup-holders and storage areas designed to accommodate an A4 folder. (Option)

12V auxiliary power point in load area

A handy socket provides an ideal power source for charging tools or other devices with ease. (Standard on Trend and Limited)

Cruise control with ASLD

Lets you set the pace.

The Adjustable Speed Limiting Device allows you to set a maximum speed to avoid inadvertently exceeding the speed limit. (Option, Standard on Limited)

The L1 van is capable of carrying two Europallets and 3-metre long items (when using the load-through bulkhead and dual passenger seat). The driver orientated cab provides high levels of stowage and functionality.

The handy underseat stowage area keeps your belongings secure and

connectivity

features a 12-volt socket, an auxiliary socket and a USB for more connectivity. (Option)

Flexible dual passenger seat

The centre seat folds down to provide a writing surface and also flips up to reveal a storage box. The outer seat base folds upwards (cinema style) to allow tall loads and boxes to be carried in the front passenger space, or drops down under the fold-down seatback to give access to the loadthrough hatch. (Standard on Trend and Limited Van)

8x4 bulkhead

The L2 Van can carry 8x4 sheets of material diagonally over the top of a specially designed bulkhead.

passengers safe from your load.

The L2 van can accommodate 3.4-metre long items (when using the load-through bulkhead and dual passenger seat) and has room for 8x4 sheet stowage behind the bulkhead.

Double Cab-in-Van offers a high level of flexibility between loadspace and space for passengers. The clever second row seats are split 60/40. The seat backs fold flat and the whole seat tumbles forward or can be removed completely to allow maximum use of the cargo space. An ingenious movable bulkhead keeps your

with second row seats in place

Transit Connect Kombi M1 L2, 7-seat

The Kombi M1 is the ideal combination for maximum passenger accommodation, whilst giving you the flexibility to fold all seats flat to convert it into a load lugger.

When you need a partner that works as hard as you do, look no further than the Transit Connect Kombi. Designed to handle the toughest daily routine, its spacious interior and additional flexibility make it an impressive proposition for carrying almost any combination of cargo or passengers.

Split-folding functionality

Transit Connect Kombi's folding second row seats have a 60/40 split, while the third row seats are split 50/50 for even greater versatility.

Perfect for long or awkward loads

With fold-flat second and third row seats, plus a fold-flat front passenger seat, there's plenty of easily-adapted space for long or awkward loads.

Rear seats fold flat to maximise loadspace

The second and third row seats fold flat, and the mesh bulkhead can be moved to help protect occupants and load.

The work-life balance

For business, pleasure or a combination of both, the rugged and versatile Transit Connect Kombi offers a clever balance of flexible, comfortable seating and robust build quality.

Designed and built for the trials of life

With its easily-adjustable seating configurations, you can adapt the Transit Connect Kombi to your changing needs.

Commercial strength, surprising comfort

Transit Connect Kombi's roomy interior is surprisingly comfortable, with supportive seats and ample space for everyone. The third row seat backs even recline for extra comfort.

Hard-wearing materials for the toughest of loads

Sophisticated, hard-wearing seat fabric and tough interior trim help to ensure the Transit Connect Kombi will retain its good looks for years to come.

Flexible and durable seat

Transit Connect Kombi takes adaptability to a new level. Second and third row seats fold flat to create a range of passenger and load-carrying possibilities.

Enjoy the best of both worlds

With its wide-opening sliding side doors and glazed rear doors. it's easy to access Transit Connect Kombi's accommodating interior, whether you're carrying passengers, cargo, or a combination of both.

The range

Base

Exterior features

- 16" steel wheels
- Door mirrors with blind spot eliminator
- Kerbside load door
- Rear fog lights
- Day running lights
- High-mounted rear brake lightFull size spare wheel (not ECOnetic)
- Easy-Fuel capless refuelling system

Option packs available:

- Fuel Economy Pack (standard on ECOnetic)
- City Safety Pack
- Comfort Pack
- Functional Pack

Ford ECOnetic Technology

- Ford Duratorq TDCi advanced diesel engines provide exceptional fuel economy and low CO₂ emissions
- Ford Auto-Start-Stop
- Ford Smart Regenerative Charging
- Gear Shift Indicator
- Ford Battery Management System improves battery life, fuel consumption and ensures ready-to-go reliability
- Speed Limiter (70mph switchable)
- Eco Mode

Trend

Exterior features in addition to Base

- 16" steel wheels with full wheel covers
- Body colour front bumper
- Front fog lights
- Body colour rear bumper end caps
- Electrically-operated and heated door mirrors
- Heated windscreen

Option packs available:

- Fuel Economy Pack
- City Safety Pack

Limited

Exterior features in addition to Trend

- Body colour bodyside mouldings
- Body colour door mirrors and door handles
- Power fold door mirrors (heated)
- 16" alloy wheels with locking wheel nuts
- Static cornering lights
- Thatcham alarm (Cat 1)
- Chrome headlamp bezels
- Chrome radiator insert

20,000 miles

or 1 year service intervals

Generous service intervals of up to 20,000 miles (or 1 year) further reduce your running costs.

EcoBoost engine

Ford EcoBoost technology gives you the power of a big engine with the fuel economy and emissions of a small one. The latest ultra-efficient 1.0-litre EcoBoost engine produces an impressive 100 PS, yet it delivers a combined fuel consumption of just 50.4mpg and CO₂ emissions of only 129 g/km (unladen).

Auto-Start-Stop

The latest Ford test figures show that Auto-Start-Stop can significantly reduce fuel consumption and CO₂ emissions with frequent stops in heavy traffic, and mixed driving conditions. (Standard on ECOnetic model and 1.5TDCi 120PS Powershift, option on Base and Trend)

Automatic transmission

Diesel engine models are now available with automatic transmission, making Transit Connect even easier and more relaxing to drive. (Option on diesel models only)

Fixed Speed Limiters

Fixed speed limiters are available on diesel engines across the range (Option)
Fixed speed limiters are hard wired and cannot be overridden or de-activated.

Ford MyKey®

This innovative feature lets you tailor and limit vehicle settings – like top speed and audio volume – to suit individual users. This can help prevent the vehicle being used in a manner that could detract from good and safe driving. (Available only on Stage 6 models)

15

emissions for L1 van (N1) with 1.5 Duratorq TDCi 100 PS, Auto-Start-Stop and 62 mph

Speed Limiter.

Base

Interior features

- Electrically-operated front windows with one-shot down on driver's side
- Remote central double locking
- DAB radio with USB and Bluetooth, two front speakers
- Trip computer
- Rake and reach adjustable steering wheel with radio controls
- Dual cup holders
- Instrument panel stowage box with 12-volt socket
- DIN compliant cargo tie down hooks & side mounting points
- ISO/DIN compliant full steel bulkhead
- Overhead stowage
- Load box light
- Immobiliser

Trend

Interior features in addition to Base

- DAB radio/CD system with 3.5" dot-matrix multi-function display, MP3 capability SYNC with Emergency Assistance, Bluetooth with Voice Control and four
- Front dome light with two map lights
- 12-volt socket in cargo area
- Flexible dual passenger seat
- Load-through bulkhead
- 8-way adjustable driver's seat including lumbar support
- Lockable glovebox
- Plastic cargo floor liner

Limited

Interior features in addition to Trend

- Dual zone Electronic Automatic Temperature Control / Air-Conditioning
- Cruise Control with ASLD
- Limited level trim with heated driver's seat
- Rear Parking Sensors
- Auto wipers / headlamps
- Leather steering wheel
- Second remote key
- LED load compartment lighting
- Auto-dimming rear view mirror

Insert: Chicane in Charcoal Black Bolster: Malt in Charcoal Black

ClimAir® wind deflector+

Reduces turbulence and noise for a more enjoyable drive with the windows down, even during light rain. (Accessory)

Base roof carriers, lockable

Roof carrier is the base for various roof transportation attachments. Roof carrier can be extended with a fourth bar for L2 models. (Accessory)

Rear ladder

For easy access to the roof. (Option and accessory, with Cargo Doors only)

Enhanced versatility

Storage solutions, extra protection and greater versatility are all available for the Transit Connect.

Rear window protection grille

Grille fixes to inside of rear windows for enhanced security without obscuring rearward vision. (Option and accessory)

Contoured mudflaps

Available as sets for front and rear, these practical hard-wearing mudflaps protect the bodywork from stone chips, helping to keep your Ford Transit Connect clean by reducing road spray. (Option and accessory)

Q-Top® (Q-Tech) roof gallery

Lightweight aluminium construction allows additional load*: Ideal for transportation of large, long or bulky items and gives you more flexibility in your daily business. Also available with a ladder roller at the rear end for easier loading. (Accessory)

*Please refer to vehicle weight and load specifications.

Tow bar, fixed and detachable versions

For extra transport and stowage capability, the tow bar can tow up to 1,300 kg* depending on engine. A detachable tow bar is also available that can be detached if not in use. (Option and accessory)

*Towing capacity depends on engine and vehicle series, please refer to vehicle weight and load specifications.

Osram® LED daytime running lights and fog lights*

Whatever the light conditions, the combined fog light with daytime running light functionality and energy efficient LED technology help ensure you get noticed by other road users and pedestrians. (Accessory)

Dension® Car Dock for Smartphones*

Multipurpose sound transmitter, mounts on windscreen or dashboard, advanced sound quality via your Ford's audio system, with built-in microphone, AUX and FM audio output. (Accessory)

Get the most from your new Ford

We want to help you get the most from your new Ford. And to do that, you need to know how much it is designed to safely carry, both in terms of payload and load volume. Your Ford Transit Centre can provide professional advice on important specification aspects, and help to find the right van for your budget and business needs.

The Ford Transit Connect is designed to carry cargo – and lots of it.

Choosing a new van is an important decision with lots of factors to be considered. While some aspects, like selecting the most appropriate derivative, identifying the intended primary use and determining load box size are relatively simple, others, such as calculating payload are more complex.

Payload capacity

To calculate payload, you need to know two things: the vehicle's gross vehicle mass (GVM) and its kern mass

Payload = Gross vehicle mass minus kerb mass

Gross Vehicle Mass (GVM)

GVM is the maximum permissible weight of the vehicle when loaded and ready to go—that includes the weight of the vehicle itself, ancillaries, driver and crew (assuming the industry standard weight of 75 kg/person), fluids, fuel tank 90% full (1 litre of diesel = approximately 0.85 kg), optional and aftermarket equipment, and cargo.

Kerh Mass

Kerb mass is the weight of a standard-specification Base series vehicle, including fluids and fuel tank 90% full, but without the driver, crew or cargo.

So to help you choose the right vehicle for your needs, here are some more detailed explanations about the factors that can influence a vehicle's payload. These include, but are not limited to:

Driver and crew

We calculate the weight of the driver and crew based on the industry-standard weight of 75 kg/person. Remember that the driver and crew are not included in the kerb mass figure, so when a driver or crew boards the vehicle, its payload will be reduced accordingly.

Factory-fitted options

Most factory-fitted options will affect a vehicle's payload. For example, air conditioning can add approximately 13 kg to a vehicle's weight, and therefore reduce its payload accordingly.

Series

All kerb masses quoted in this brochure are for standard-specification Base series models. Trend and Limited series models will generally weigh more than Base series due to the increased level of features and equipment.

Manufacturing tolerances

Variations in manufacturing and production processes mean that no two vehicles are likely to weigh exactly the same.

Accessories and aftermarket conversions

It is important to think carefully about what you do with your vehicle after you take delivery. Any accessories fitted or aftermarket conversions to the vehicle may adversely affect its payload. Please speak to your Ford Transit Centre for more information and advice.

If payload is critical to your business, or if you plan to carry cargo at, or close to, the vehicle's maximum capacity, your Ford Transit Centre can help. Using their specialist expertise and knowledge, they can advise you on the exact specification of vehicle required to meet your individual business needs.

L1 = Short wheelbase, L2 = Long wheelbase "Payload = Gross vehicle mass, less kerb mass. All kerb masses quoted in this brochure are subject to manufacturing tolerances and are for Base models with minimum equipment and exclude spare wheel. Trend and Limited models will have greater kerb masses and, therefore, lower payloads due to the increased amount of standard equipment. Any additional options specified on the vehicle will reduce the payload accordingly. "Represents the lightest kerbweight assuming full fluid levels and 90% fuel levels, subject to manufacturing tolerances and options, fitted. Note all diesel engines are fitted with a standard vDPF (vaporiser Diesel Particulate Filter). "The declared fuel/energy consumptions and CO₂ emissions are measured according to the technical requirements and specifications of the European Regulations (EC) 715/2007 and (EC) 692/2008 as last amended. Fuel consumption and CO₂ emissions are specified for a vehicle variant and not for a single vehicle. The applied standard test procedure enables comparison between different vehicle types and different manufacturers. In addition to the fuel efficiency of a vehicle, driving behaviour as well as other non-technical factors are very important in determining a vehicle's fuel/energy consumption and CO₂ emissions. CO₂ is the main greenhouse gas responsible for global warming. A guide on fuel economy and CO₂ emissions which contains data for all new passenger car models is available at any point of sale free of charge or can be downloaded under http://carfueldata.dff.gov.uk/.

• = Standard. Note all diesel engines are fitted with a standard vDPF (vaporiser Diesel Particulate Filter). L1 = Short wheelbase, L2 = Long wheelbase

Two Europallet loadspace

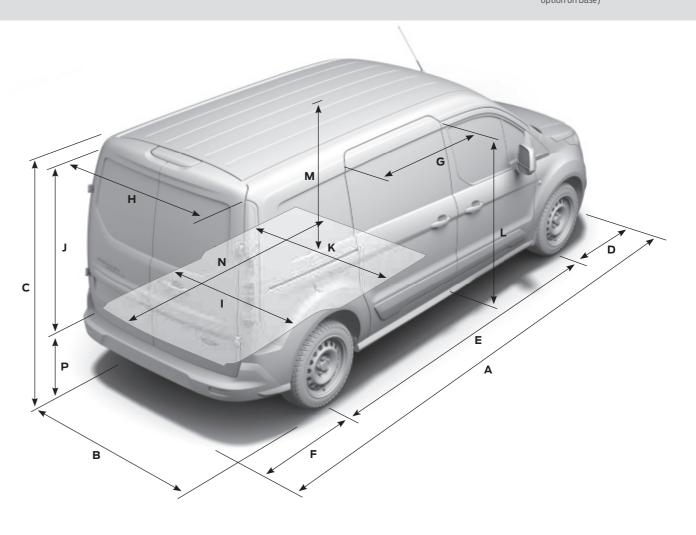

There's room for two Europallets in both L1 and L2 behind an ISO/DIN compliant bulkhead (restricted loading of front pallet in L1).

Sliding side load door with extra wide aperture on L2

(Standard)

3m/3.4m load length with load-through bulkhead

The short wheelbase van can carry 3-metre long items, thanks to the flexible loadthrough bulkhead, whilst the L2 van is capable of taking 3.4-metre long items. (load-through bulkhead standard on Trend and Limited, option on Base)

EcoBoost petrol engine

Ford EcoBoost technology gives you the power of a big engine with the fuel economy and emissions of a small one. The latest ultra-efficient 1.0-litre EcoBoost engine produces an impressive 100 PS, yet it delivers a combined fuel consumption of 50.4 mpg and CO₂ emissions of only 129 g/km.

International Engine of the Year Ford 1.0 litre EcoBoost

Engine data	features features	Maximum power [®]	Maximum torque®
1.0 EcoBoost Stage VI	3 cylinders in line, DOHC, 12 valves, alloy cylinder head, direct injection with high- pressure, common rail fuel injection system, turbocharger with intercooler	100 PS (74 kW)	170 Nm
1.5 TDCi Diesel Stage VI	4 cylinders in line, SOHC, 8 valves, aluminium cylinder block with open deck, direct injection via solenoid injectors, common rail 3rd generation fuel injection system, fixed geometry turbocharger with intercooler	75 PS (55 kW)	190 Nm
1.5 TDCi Diesel Stage VI	4 cylinders in line, SOHC, 8 valves, aluminium cylinder block with open deck, direct injection via solenoid injectors, common rail 3rd generation fuel injection system, fixed geometry turbocharger with intercooler	100 PS (74 kW)	250 Nm
1.5 TDCi Diesel Stage VI	4 cylinders in line, SOHC, 8 valves, aluminium cylinder block with open deck, direct injection via solenoid injectors, common rail 3rd generation fuel injection system, fixed geometry turbocharger with intercooler	120 PS (88 kW)	270 Nm (300 Nm with auto)
1.6 TDCi Diesel Stage V	4 cylinders in line, SOHC, 8 valves, alloy cylinder head, direct injection with high-pressure, common rail 3rd multipoint fuel injection system, turbocharger with intercooler, electronic EGR	75 PS (55 kW)	220 Nm
1.6 TDCi Diesel Stage V	4 cylinders in line, SOHC, 8 valves, alloy cylinder head, direct injection with high-pressure, common rail 3rd multipoint fuel injection system, turbocharger with intercooler, electronic EGR	95 PS (70 kW)	230 Nm
1.6 TDCi Diesel Stage V	4 cylinders in line, SOHC, 8 valves, alloy cylinder head, direct injection with high-pressure, common rail 3rd multipoint fuel injection system, turbocharger with intercooler electronic FGR	115 PS (85 kW)	270-285 Nm*

[°]Tested in accordance with ISO 1585. *With transient overboost. **Note:** all diesel engines are fitted with a standard vDPF (vaporiser Diesel Particulate Filter).

Flexible dual front passenger seat

The dual passenger seat allows you to fit up to three in the cab. The centre seat folds down to provide a writing surface, and also flips up to reveal a storage box. The fold flat outer seat enables long items to be loaded into the passenger footwell and under the instrument panel. It is also able to fold backwards (cinema style) to allow tall loads and boxes to be carried in the front passenger space. (Standard on Trend and Limited)

Choosing the colour and trim for your new Ford Transit Connect is an opportunity to make a bold 29 style statement.

Blazer Blue Solid body colour

Frozen White Solid body colour

Race Red Solid body colour

Moondust Silver Metallic body colour*

Deep Impact Blue Metallic body colour*

Shadow Black Mica body colour*

Magnetic Metallic body colour*

Tectonic Silver Metallic body colour*

The new Transit Connect owes its durable exterior to a thorough multi-stage painting process. From the wax-injected steel body sections to the environmentally friendly water-based top coat, Transit Connect will retain its good looks for many years to come.

Making life easy

Our range of finance, service and assistance options is designed with just one thing in mind – making life easy for you.

Ford Transit24

At Ford we recognise the importance of minimising downtime, inconvenience and expense – that's why we provide first-class aftersales support.

When it comes to the service, maintenance and repair of your Ford commercial vehicles, look no further than your nearest Transit Centre. Dedicated to looking after your vehicle, Transit Centres offer specialised workshop equipment, tools and training, and can look after all your service, maintenance and warranty work.

Convenient servicing

While-you-wait servicing Your commercial vehicle can be serviced when it suits you. Late night service appointments are available at least once a week and we respond to 1link online service booking requests within twenty minutes.

Collection and delivery This can be arranged at the time of your service booking for locations within a reasonable travelling time. So that it looks its best, your vehicle will be washed.

Fleet National Pricing Maximum recommended pricing for fleets with over 25 vehicles ensures you get the best price for routine services and fixed-content job.

MOTs and more Transit Centres can handle MOTs (including Class 5 and 7 tests), tachograph servicing and speed limiting (VOSA approved).

Other benefits

Ford parts availability Ford will endeavour to ensure any parts required will either be in stock or delivered anywhere on the UK mainland by 9am the next morning.

Genuine Ford parts quality All parts are designed and engineered by Ford, to Ford standards. Parts fitted to a vehicle outside of warranty carry a 'fitted in service' parts warranty.

Ford diagnostics For speedy and accurate fault diagnosis, we provide a sophisticated, internet-linked vehicle diagnostics system.

Ford trained technicians Ford commercial vehicle dealers have Ford-trained technicians, supported by online technical information and a Ford technical hotline.

Unscheduled repairs When your commercial vehicles aren't working, neither are your drivers. Our priority is to get your vehicle back on the road as quickly and as efficiently as possible.

Priority treatment for urgent repairs Initial diagnosis on urgent (vehicle off-road) repairs is carried out on arrival, with parts ordered within two hours of arrival – especially helpful when a replacement vehicle won't do. We aim to complete most repairs the same working day.

Dedicated backup from Ford

Ford Fleet Electronic Recall Programme This simplifies the process of recalls and improves communications with the operators of affected vehicles.

Ford Fleet Service Centre A dedicated team of experienced service advisors to assist with your aftersales issues.

Ford Fleet Accident Management Whatever the make of the vehicle, we offer a free, ethical and comprehensive accident management programme.

Efficiency, accuracy and convenience are at the heart of the Ford Transit24 commercial vehicle service promise. So, whether it's servicing, maintenance or repair you need, be sure to come and see us.

For more information and to find your nearest Transit Service Dealer, visit the aftersales support section at www.ford.co.uk/fordfleet

Illustrations, descriptions and specifications. This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and Items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. Optional equipment. Throughout this publication, wherever a feature is described as being an 'Option' or 'Option Fitment/Pack' etc, you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability.

Note. Some images portrayed are of a pre-production model and/or are computer generated, therefore, the design/features on the final version of the vehicle may differ in various respects. In addition, some of the features shown on the vehicles may be optional. Note. This brochure contains both original Ford accessories as well as a range of products from our suppliers. *The identified accessories are carefully selected third party supplier branded accessories which do not come with a Ford warranty but are covered by the third party supplier's own warranty, the details of which can be obtained from your Ford Dealer. Note. The Bluetooth* word mark and logos are owned by the Bluetooth SIG, inc. and any use of such marks by Ford Motor Company is under licence. The iPod word mark and logos are the property of Apple Inc. Other trademarks and trade names are those of their respective owners. Note. Some driver assistance features and safety features described in this brochure are designed to function using sensors, whose performance may be affected under certain weather or environmental conditions.

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular vehicle. The vehicles themselves have not been tested and there are inevitably differences between individual vehicles of the same model. In addition, a vehicle may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the vehicle has been driven and the standard of maintenance, will affect its fuel consumption. Insurance groups are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation.

Ford and $\ensuremath{\mathsf{BP}}$ – working together to reduce fuel consumption and emissions.
