PEUGEOT

PARTNER

PRICES - EQUIPMENT - TECHNICAL SPECIFICATIONS

Effective from 1st July 2025
2026 Model Year (B0)

LET'S BEGIN

PEUGEOT PARTNER

PEUGEOT PARTNER features a renewed design, improved efficiency, the latest-generation connectivity and more sophisticated driving aids.

It also retains the robustness, versatility and driving dynamics that have made it such a success with professionals. Within the interior, the driving position has been extensively redesigned for greater comfort, ergonomics and practicality. The dashboard and steering wheel have also been redesigned, while the digital instrument cluster and the large central 10-inch touchscreen make the interface between driver and vehicle an enjoyable and efficient one.

STANDARD EQUIPMENT BY EDITION

PANEL VAN
PROFESSIONAL PLUS

STANDARD FEATURES INCLUDE

INFOTAINMENT

- Audio controls through steering wheel buttons
- Peugeot i-Connect Advanced infotainment system featuring:
  – 10in HD colour touchscreen
  – AM/FM/DAB digital radio
  – Wifi Mirroring
  – Bluetooth & 2 USB connection
  – Two speakers & two tweeters
- Peugeot Connect with RCE (emergency call and localisation assistance + offers of branded services)

INTERIOR CONVENIENCE AND STYLING

- 10-inch digital instrument cluster
- Steering column adjustable for reach and rake
- Full-width overhead storage shelf
- Air conditioning
- Driver's top-lidded glovebox
- Cruise control with speed limiter
- 12v socket in dashboard
- Moduwork with load-through bulkhead

SEATING

- Six-way adjustable driver's seat with lumbar adjustment
- Dual front passengers' fixed bench seat
  – Fold-flat centre seat backrest with table
  – Two-way foldable outer seat

EXTERIOR CONVENIENCE AND STYLING

- Electrically adjustable/heated door mirrors
- Electrically operated front windows with one-touch facility
- Nearside sliding side-access door
- Nearside and offside sliding side-access doors (Long)
- Asymmetrical solid panel rear doors
- Emergency tyre inflation kit
- Side-protection mouldings
- 16-inch steel wheels with centre caps

SAFETY, SECURITY AND LIGHTING

- Rear parking distance sensors
- Lane keep assist
- Intelligent speed assistance
- Driver attention alert
- High beam assist
- Automatic lighting control
- Advanced emergency braking system
- Electronic stability programme with traction control
- Anti-lock braking system
- Driver and front passengers' airbags
- Side-impact airbags
- Height-adjustable front seatbelts
- Full-height steel bulkhead with clothes hook
- Hill start assist
- EcoLED Headlights with daytime running lamps (Diesel only)
- Remote control central deadlocking
- Engine deadlock immobiliser
- Electric Parking brake

CREW VAN ADDITIONAL FEATURES

- 5-seater configuration
- Four-way adjustable passenger seat with storage/trays on back of seat
- Three-seat second-row bench with lap and diagonal seatbelts
- Two-position moveable ladder frame bulkhead
- Peugeot i-Connect infotainment system including Connected Navigation featuring:
  – Fully integrated Satellite Navigation system
  – 10-inch HD colour touchscreen
  – AM/FM/DAB digital radio
  – Wifi Mirroring
  – Bluetooth & 2 USB connection
  – Two speakers and two tweeters
- Vinyl load floor covering

* Either available via MyPeugeot App (6 months free subscription trial - for more information click here) or via Peugeot i-Connect infotainment system.

Please note: The above LCDV codes are for England, Wales and Scotland.
For Northern Ireland the 'TX' is replaced with 'T0'.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government). Please see our Prices and Specifications brochures or contact your local Peugeot Retailership for the most up-to-date prices and specification details for all models. CO2 figures above are for a standard vehicle without any additional optional equipment. The addition of optional extras could increase the certified CO2 emission output. * Asphalt versions benefit from the Multi-flex modular folding Passenger bench seat which provides an additional load length of 1273mm and increases the load volume by 0.5m3. ** WLTP figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other vans tested to the same technical standard. The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures. † All Manufacturer's Recommended Basic Prices are exclusive of V.A.T., Delivery to Retailer and Number Plates, Government First Registration Fee and Vehicle Excise Duty. ^ The Government PiVG is worked out at 35% of the Base Vehicle Price (incl. VAT) and including any discounts applied up to a maximum of £2,500.

CONNECTED SERVICES

Partner also includes a fleet management service offer....

Preventative Maintenance

For 4 Years for Customers managed by DEALERS
(B2C & SME)

The Preventative Maintenance Service via Free2Move is designed to help monitor and optimize the health of commercial vehicle fleets, offering support through live alerts and upcoming maintenance reports. This makes it easier for fleet managers to keep their vehicles in good working condition, saving time and money.

- Fleet Dashboard View
- Maintenance Tracking
- Report via Email
- Vehicle Health Alerts
- Van Maintenance Appointment

Customers can upgrade (via subscription) to Connect Fleet. This management platform is a full version opening up a broader spectrum of possibilities. With Connect Fleet customers can optimise the use of their vehicles by gaining access to consumption reports, mechanical alerts, eco driving and driving behaviour reports and vehicle geolocation in the event of theft in real time.

For more details click here
For contact click here

4 YEARS TRANSFERABLE

OR

Fleet Management Data Pack

For 4 Years for customers managed by NSC KMAs
(Major Fleets, RAC & Leasing)

Natively embedded telematics data via MyPeugeot is already included in vehicle purchase for eligible vehicles. This enables a multitude of fleet management use cases to boost fleet efficiency, safety and sustainability, including:

- Fuel Management,
- Vehicle Health Monitoring & Maintenance Management,
- Route Optimization,
- Driver Monitoring,
- EV Charging Management

Benefits for Fleet Customers

- Compatible with any Fleet Management Service Provider
- No expenses for aftermarket device, no additional data costs for customer
- No downtime for installation
- Seamless, immediate and zero-touch activation, rapid deployment at scale
- As telematics system is fully integrated in vehicle, data source is primary and will not be a third party approximation.

STEERING	Speed-sensitive electric power-assisted system Turning circle (kerb-to-kerb) – 10.8m (35.4 ft) Standard models, 11.4m (37.4 ft) Long models Turning circle (wall-to-wall) – 11.3m (37.1 ft) Standard models, 12.0m (39.4 ft) Long models	
SUSPENSION	Front: Independent. MacPherson struts with gas-pressure dampers and linear-rate coil springs. Anti-roll bar Rear: Torsion beam with gas-pressure dampers and constant-rate coil springs (variable-rate on 2300 models)	
BRAKES FRONT/ REAR		
FUEL TANK CAPACITY LITRES (GALLONS)	50 (11)	
ADBLUE TANK CAPACITY LITRES (GALLONS)	17 (3.7)	

*Replacing the traditional lever, the Automatic transmission selection-mode dial/drive wheel is an innovative solution that is both elegant and intuitive. By simply twisting the dial, the following modes can be selected:

- Park, for when the vehicle is stationary and the wheels are locked
- Drive, for Automatic forward motion
- Neutral, for when the vehicle is stationary, wheels are free
- Reverse, for Automatic backward motion

For an extra experience of dynamism, the shift paddles for Automatic transmissions are located behind the steering wheel, offering drivers an extra level of control that is highly ergonomic and intuitive. The shift paddles function in the following way:

- To go up a gear, the driver must pull the right lever towards themselves

- To go down a gear, the driver must pull the left lever towards themselves

GLOSSARY OF TERMS

PLATED WEIGHT
The maximum weight to which a vehicle or an axle may be loaded, determined either by the design of the components or by legislation. All commercial vehicles must carry a manufacturer's 'plate' showing the vehicle and axle gross 'plated weights'. It is an offence to drive a vehicle in a condition where any of these weights are exceeded.

MINIMUM MASS
Minimum Mass ('Mass in running order' on Certificate of Conformity and 'Mass in Service' on V5C form) is defined according to European Type Approval and include all fluids, tools and 90% fuel load. It is minimum mass for this variant and does not consider local specification/trim or deletable options (specific to Boxer). Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance).

GROSS VEHICLE WEIGHT (GVW)
The total permissible weight of a vehicle including payload and passengers, as shown on the manufacturer's plate.

GROSS COMBINATION WEIGHT (GCW)
The maximum permissible weight of a vehicle, including payload and passengers, combined with the total weight of any trailer it is towing. The maximum GCW weight limit is quoted on the vehicle plate and must not be exceeded.

PAYLOAD
The total permissible weight that can be carried without exceeding the vehicle's plated weight. Payload do not include driver but do take into consideration specification/trim level:Weights are also subject to manufacturing tolerances (EU Legislation allows 5% tolerance). Payload does not consider any additional options that a customer may order.

ROOF LOADS
Roof load should not exceed 100kg including the weight of the roof rack/carrier

MAXIMUM TOWING WEIGHT
The maximum weight of any trailer and its load which may be towed within the limit of the vehicle's plated Gross Combination Weight (GCW). It is based on the ability of the vehicle – at full GCW – to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. It is the operator's responsibility to ensure that the trailer noseweight does not cause the rear axle plated weight of the towing vehicle to be exceeded.
Always fit Peugeot towing attachments and accessories available from your Peugeot Commercial Vehicle Retailer. They are designed specifically for Peugeot models and carry a 12-month warranty.
