

# All new Hilux. A new era for the pick-up.

TOYOTA

ALWAYS A  
**BETTER** WAY

#Hilux

# All new Hilux. Equipped like an SUV.

For almost 50 years the Toyota Hilux has forged an unmatched reputation for long-lasting, hard-wearing quality, put to the test in the world's most extreme environments. The all new generation of Britain's best-selling pick-up builds on this heritage to set new benchmarks in strength, performance and driveability, whilst introducing even higher levels of comfort and equipment.

The all new Hilux is an authentic all-rounder. Formidably tough, yet benefiting from advanced technologies to keep you safe, in control and fully connected while on the move. The new range introduces the Toyota Safety Sense† package of active safety features and the latest Toyota Touch 2 multimedia system^, with touchscreen tablet-like control.

Longer, wider, taller, with increased towing capacities and a larger load deck than ever before, Hilux is designed for even better performance both on and off-road. Its contemporary, SUV-inspired new styling creates a strong visual impact, while the redesigned cabin is a quieter and more comfortable place to be on any kind of journey.

The breadth of ability is matched by the choice available: Single, Extra and Double Cab body styles, four equipment grades and two and all-wheel drive options to suit your needs. Power is courtesy of a new 150hp 2.4-litre D-4D turbodiesel engine that is smoother, cleaner and provides generous extra torque for superb pulling power.

For work, for leisure or as the ideal all-rounder, the all new Hilux gives you more and takes you further.

## Every inch a Hilux

**3 times stronger engine undercover**  
**20 years corrosion resistance**  
**Up to 3.5t towing capacity\***  
**20% more rigid frame**  
**Bigger load area**  
**New & improved 2.4D-4D engine**

## Equipped like an SUV

**7" Toyota Touch 2 system^**  
**Smart Entry and Start (Standard on Invincible/Invincible X grades)**  
**Rear view camera^**  
**Rain and dusk sensors**  
**Toyota Safety Sense†**

# Eye catching exterior styling.

The all new Hilux's impressive combination of toughness and refinement is perfectly captured in its sleek and dynamic styling. The new front grille and headlamp units are brought together in a unified design that wraps right around the front of the vehicle. New daytime running lights use an array of 12 LEDs to give the Hilux a unique lighting signature, while on high-grade models LED projectors are used for the low-beam headlights.

The deep bumper, with integrated fog lights and larger lower grille, not only communicates a sense of power, it has been shaped to give the best possible ground clearance when negotiating demanding off-road terrain.

Hilux's fundamental strength is expressed in the way the front bumper flows seamlessly into muscular wheel arches that house newly designed 17 or 18-inch wheels. The effect is reinforced by the thickness of the lower door section, linking through to powerful rear wheel arches that are fully integrated into the body.

Strong style is matched by impressive practicality, as witnessed by a new rear bumper, set lower to provide a deeper rear step to help access to the load deck when the tailgate is closed. The deck itself is larger, stronger and more rigid, thanks to strategic reinforcements.

Leather seats with heater  
Go Navigation  
Front and Rear parking sensors  
Chrome pack (fog lamp surround, bumper trim, headlight surround, scuff plates, rear lamp chrome trim)  
Rear "HILUX" sticker

# New and improved engine.

Hilux challenges the perception of power with its brand new diesel model. The 2.4 litre D-4D engine performs superbly thanks to new technology which dramatically increases torque in low to medium speed ranges and provides unprecedented acceleration. The new engine also contributes to Hilux's improved towing capabilities. This engine has been designed to keep noise levels down and efficiency up. In fact, the refined sound insulation can make you forget that you're driving a pick-up. The same is true for the efficient new 6-speed manual and 6-speed automatic transmissions: they add to the premium SUV-style driving sensation.

The new 2,393cc unit generates 150hp at 3,400rpm and offers 400Nm of torque from between 1,600 and 2,000rpm - this is 15% more and from 600rpm lower than the outgoing, and already impressive 2.5 litre engine. Despite being on par with competitors' high performance engines, this doesn't come at the expense of fuel efficiency. The new 2.4-litre D-4D returns an average fuel consumption and CO<sub>2</sub> emissions as low as 40.4mpg\* and 185g/km\*.

\*Combined Cycle.

Quoted mpg & CO<sub>2</sub> figures: All mpg and CO<sub>2</sub> emissions figures stated in this brochure are sourced from official EU-regulated tests. These are provided for comparability purposes and may not reflect your actual driving experience.

\*Image shown may not be to UK specification and may show accessory options.

# Hilux configurations.

The all new Hilux is available in a choice of body styles to suit your needs, be they for maximum load-carrying capacity, or for additional cabin space.

Both cabin comfort and deck volume have been improved by increases in vehicle length and width. The new model is 75mm longer than its predecessor and 20mm wider and, although overall height has been reduced, ground clearance has been increased for even better off-road performance. Benefits include a significant increase in towing capacity, with capability set to reach up to 3.5 tonnes\*.

The Single and Extra Cab models put the emphasis on work. Single Cab combines a two-door design and two-seat cabin with a larger and tougher deck – now 124mm wider and 30mm deeper. The Extra Cab increases cabin flexibility by adding two occasional rear seats, bringing a modest reduction in deck size. Both Single and Extra Cab are available in Active trim only.

The new Hilux Double Cab is the genuine all-rounder, equipped with four doors and three rear seats whilst still retaining a generous load area of 1,525 x 1,540mm. Double Cab is available in all four equipment grades, and is supported by a wide range of genuine accessories.

\*3.2 tonnes confirmed for launch, 3.5 tonnes by year-end 2016.

# Fleet Business Plus

## **Simplify fleet management with our Business Plus services**

Make procuring and managing your fleet easy, effective and hassle free. Business Plus delivers tailored services to support fleet managers, keep your company car drivers happy and business costs down.

## **3-day extended test drives**

Drivers deserve to choose their perfect car. That's why our models are available for extended 3-day test drives. One call or click is all it takes. Visit: [toyotalexusfleet.co.uk/testdrive](http://toyotalexusfleet.co.uk/testdrive)

## **Informed decisions**

Need answers quickly? Our Business Centres promise you same-day access to a business manager or specialist sales executive. Using interactive modelling tools with the latest emissions, fuel economy, servicing, insurance and

residual value data, our advisers can accurately compare tax and whole-life costs against any competitor.

## **Serviceability**

- + Fixed-price fleet servicing
- + Free corporate risk assessment
- + Specialist fleet insurance
- + Business daily hire
- + Toyota & Lexus Fleet Financial Services
- + Dedicated B2B Field Team and Business Centre Network
- + Whole-life cost modelling

## **Work smarter**

Whenever servicing is due, we offer free vehicle collection and delivery (with wash and vac), plus a guaranteed booking within three working days. At any of our 71 Business Centres, express servicing

in under 90 minutes cuts waiting times, whilst free Wi-Fi ensures drivers can continue to work.

## **Transparent costs**

All our business customers enjoy capped labour rates and oil prices, and guaranteed parts discounts. For example, if wiper blades or screen wash need replacing during a service, there's no labour charge.

## **Fast, flexible finance solutions**

Whether you prefer to rent or own your vehicles, Toyota & Lexus Fleet Financial Services offer competitive, flexible solutions. You'll find business rental finance like leasing, contract hire and finance lease, and ownership solutions including hire purchase, personal contract hire and lease purchase – all available with a pre-approved credit line.

## **Business daily hire**

Drive away in a hired Toyota or Lexus from one of our specialist rental centres. Boasting high-end specifications across our range, including hybrid and commercial models, it's the perfect opportunity to take the wheel of something different from just £9.99 a day. Find out more at [toyotalexusfleet.co.uk/rental](http://toyotalexusfleet.co.uk/rental)

## **Free corporate risk assessment with Driver Intelligence**

Our service helps qualifying fleet customers better understand their operations. See how your organisation can encourage fuel-efficient motoring, reduce emissions and – most importantly – prevent fatalities. Talk to us about a free corporate risk assessment, in partnership with fleet management expert Driver Intelligence.
