COROLLA COMMERCIAL

Introducing the Corolla Commercial:
The hybrid van for your business.

Corolla Commercial has a self-charging hybrid system that helps your business go further. Featuring two front seats and a big rubber-lined cargo area. Your load is secure with the metal bulkhead that separates it from the cabin.

The latest Toyota safety systems are designed to keep you safer on your journey. Enjoy our first self-charging hybrid van, which uses the same technology as the Corolla Hatchback and Touring Sports passenger models. It switches between electric energy and a mix of petrol and electric power, without plugging in.

The Corolla Commercial has great fuel efficiency and lower emissions. It helps your business to be more eco-friendly.
